

Welcome To Our Future & Malvern Hills Area of Outstanding Natural Beauty invite you to

Sustainable Community Buildings

A free event demonstrating the practical ideas and technologies for making our community facilities more sustainable.

Wednesday 4th March, 7-9pm
Colwall Village Hall

Find out more about

- Eco-friendly architecture and design
- Energy efficient buildings
- Micro generation: making energy from solar, wind, hydro, ground source, biofuel and biomass
- Grants and finance to help make it all happen

On hand will be representatives from local community buildings who have been through the process of making their facilities more sustainable, plus a green architect, a micro-generation installer, a green electricity company, Severn Waste Environmental Fund who give grants, and Impetus who can finance community projects. So come and meet the experts!

To register your interest in coming along contact Welcome To Our Future on 01386 556222 or email steve@wtof.org.uk, or visit www.wtof.org.uk
